

REWARDING AND PRODUCTIVE EXPERIENCES

We believe that there is a place for every child who wants to play soccer in our Club. We adhere to every guiding principle of FIFA's Fair Play Code. Our players are taught to play fair and respect the laws of the game, as well as, their opponents, teammates, referees and families. We play to win, but accept defeat with dignity and always promote a positive experience.

Competitor clubs, players, parents and referees often judge us by how we behave on the sidelines. Appropriate sideline behavior not only applies to our coaching staff and players, but to our families and supporters as well. To carry on our high standards, Club members and parents must conduct themselves appropriately by always maintaining a positive and encouraging demeanor. Parents and players from competitor clubs and referees are not the enemy.

Arkansas Rising wants to ensure a rewarding and productive experience for all members. By registering your player to participate with Rising, you and your player agree to the terms, conditions, and provisions of the Rising Code of Conduct Policy. Although the Code of Conduct does not cover all the policies of the Club or address all potential issues, it addresses several matters which arise with regularity. We require all players and parents to adhere to the Code of Conduct.
